ASSOCIATION DE CULTIVATEURS D'HOUBLON DE L'ONTARIO

**Ontario Hop Growers Association 2022 Annual General Meeting
Sponsor Information**

Presenting Sponsor

Niagara College's Canadian Food & Wine Institute Innovation Centre has been offering hops analysis to Ontario hop growers since 2016. We are pleased to offer a 15% discount to OHGA members on hop analysis services, including the Hops Analysis Package (alpha and beta acids, moisture content and Hop Storage Index.)

The world is increasingly dependent on our ability to develop and maintain sustainable agriculture and healthy environments. At BASF, we work with farmers, agricultural professionals and industry experts to help make this possible. We connect innovative thinking and down-to-earth action to create real world ideas that work – for farmers, society and the planet – and we’re proud to be able to offer a portfolio of products that give your crops excellent protection against weeds, disease and insects, keeping your crop thriving and healthy all season long.
